

epsotech Restructuring – Competence Centers for Future Success

Competence Center Strategy Update: Driving Innovation and Growth

Jülich, October 2nd, 2024 **epsotech, a leading innovator in advanced polymer solutions, is excited to provide an update on its new Competence Center Strategy, aimed at enhancing expertise in Polyolefins, ABS, HIPS, PVC, and specialized engineered polymers from its three product brands: epsoessential, epsoengineered, and epsoearth. These Competence Centers are significant to epsotech’s mission to drive innovation, sustainability, and improve customer collaboration across key industries such as automotive, medical, and construction.**

Each Competence Center serves as a hub for specialized knowledge, technical support, and customer service, ensuring that epsotech delivers tailored polymer solutions that meet the highest standards of performance, durability, and sustainability. The Competence Centers are structured as follows:

- **Polyolefins:** Produced at **epsotech Germany, epsotech France** and **AXIPACK**, utilizing highly sustainable **epsoearth** materials ranging from 0.25 mm to 25 mm in thickness.
- **ABS (Acrylonitrile Butadiene Styrene):** Manufactured at **epsotech Italy, epsotech France, and epsotech UK**, including ABS PC, ABS PMMA and ABS FR variations with features like anti-slip, flame-retardant or chrome surfaces.
- **HIPS (High Impact Polystyrene):** Produced at **epsotech Austria**, offering an outstanding silver or gold mirror finish.
- **PVC (Polyvinyl Chloride):** Fabricated at **epsotech UK**, equipped with antimicrobial surfaces, making it particularly suitable for wall cladding in hospitals, schools, and public buildings.

“Our Competence Centers are central to epsotech’s mission of delivering cutting-edge, sustainable solutions to our customers,” said **Predrag Skender, CEO of epsotech**. “These centers enable us to manufacture with greater flexibility and efficiency, collaborate more closely with our customers, and quickly adapt to market demands. We are excited about the progress we’ve made and the opportunities that lie ahead.”

In the first six weeks of the self-administration process in Germany, the Competence Center Strategy has already yielded promising results. epsotech has surpassed initial performance estimates, maintaining strong customer loyalty and ensuring reliable product delivery. This early success highlights the strength and determination of the epsotech team, as well as the effectiveness of the newly implemented strategy. The **epsotech PO Competence Center** in Germany is producing and delivering better than ever before.

About epsotech:

For more than 60 years, epsotech has been developing customized plastic solutions for a wide range of segments and markets. Each year, the group supplies more than 2,500 customers worldwide, combining the strengths of 6 European production sites (Macedonia from 2026). epsotech offers the most comprehensive portfolio of extruded sheets and films in Europe - with the goal of 100% recyclability and return to the material cycle.
