

*epsotech Consolidates for Greater Efficiency and Sustainability*

## Shaping the Future – Just You and Your Sheets

**Böblingen, August 18<sup>th</sup>, 2025** The epsotech Group is moving forward with its reorganization plans in Germany and across Europe. The aim is simple: streamline operations, use resources more efficiently, and secure long-term competitiveness. Closing the epsotech Germany site will not affect SKENDER GmbH or its production facilities in the UK, France, Italy, and Austria.

The closure is expected to have only a minor impact on epsotech product sales in Germany. Production at the site will continue until the end of September. The Jülich site is not part of SKENDER GmbH, which operates independently and has no connection to epsotech Holding GmbH or epsotech Germany GmbH.

### **No Impact on SKENDER GmbH or Other Group Sites**

Since July 1, 2025, SKENDER GmbH has been operating largely independently with its European production sites – epsotech UK, epsotech France, Axipack, epsotech Italy, and epsotech Austria – separate from epsotech Germany. The reorganization under the motto “*Just you and your sheets*” will strengthen these sites, improve efficiency, and secure the group’s future.

### **Axipack Site to Continue Parts of PO Business**

Parts of the polyolefin (PO) product line previously produced at the epsotech Germany site will now be efficiently managed by the **Axipack site**. This clear division of responsibilities between sites fosters synergies, improves process efficiency, and guarantees a reliable supply of customized products to customers.

### **epsotech Group’s Goal**

“Just You and Your Sheets – our goal is to simplify processes, act quickly, and focus on what matters most to our customers: reliable products, personal service, and on-time deliveries. With production in four countries, we can work flexibly and make faster decisions – exactly as our customers expect. At its core, it means putting you and your requirements at the center – delivering products made precisely for you. *Just You and Your Sheets*,” says Predrag Skender, Owner and CEO, epsotech part of SKENDER GmbH.

#### **About epsotech:**

For over 60 years, epsotech has been developing customized plastic solutions for a wide range of industries. With four production sites across Europe, the group supplies more than 2,500 customers worldwide each year and offers the broadest portfolio of extruded sheets and films in Europe – all with the goal of full recyclability and reintegration into the material cycle.
